

Installation Instructions: 2006-2011 Dyna One-Piece Seats

A. Baseplate Features

One-piece baseplates are constructed of marine-grade fiberglass. Front of seat engages at nose and the rear end is secured with a single stock fender screw.

B. Removal of Stock Seat

1. Remove rear fender screw.
2. Lift seat up and pull back to remove it from the bike.
3. If a passenger hand strap is present, it must be removed before installing the Mustang seat.

C. Installation of Mustang Seat

1. Engage nose tab at front of seat into receiver on bike frame.
2. Align rear tab with threaded insert in fender and secure seat with 1/4-20 screw.

Enjoy the comfort of your new Mustang seat.

These steps are guidelines to help you install your new Mustang product. If you need further assistance please call us at 800-243-1392, Monday through Friday 9:00 - 5:30 Eastern or send an e-mail to questions@mustangseats.com or visit our website at www.mustangseats.com.

For care and maintenance of our seats, please go to our website under "Support".
